WebRezPro partners with Novera to offer Easy, Secure Payment Processing

WebRezPro cloud property management system offers US customers integrated PCI-compliant payment processing through a new interface with Novera Payment Solutions, LLC.

Calgary, AB – May 15, 2014 – WebRezPro™, a complete, cloud-based property management system (PMS) for independent hotels, hotel groups and chains, vacation rentals and inns, is pleased to announce a partnership with Novera Payment Solutions, LLC. The Novera interface allows US customers to securely process credit card payments directly through WebRezPro PMS.

As part of this partnership, Novera provides its integrated payment processing solution to WebRezPro customers utilizing a transparent flat fixed monthly fee structure; all additional fees normally associated with payment processing integration — gateway fees and interface setup and maintenance fees— have been absorbed into one bundled package.

"The partnership between Novera and World Web Technologies Inc. is exactly the type of relationship we look for with Integrated Software Vendors or (ISV's)….. The collaborative effort between World Web Technologies, Inc. and Novera has definitely produced a great offering for the WebRezPro clients, and we are extremely pleased to be partnered with them" said John Wisniewski, Director of Business Development for Novera Payment Solutions, LLC.

 "With Novera, we are pleased to offer our clients a straightforward, secure and robust integrated credit card processing solution that will save them time and money," said Frank Verhagen, President of World Web Technologies Inc., the company behind WebRezPro.

About Novera:
Novera specializes in partnerships with Integrated Software Vendors or (ISV's) for payment acceptance. These partnership programs include the initial design plan, including optimization for maximum adoption of uses and the ongoing management of the program. Novera is one of the largest registered Member Service Providers (MSP's) for WorldPay and offers optimal flexibility in accepting payments, and virtual terminal solutions through PCI-compliant payment processing and transparent flat-fee pricing plans.

About WebRezPro:
WebRezPro™ is a powerful and cost-effective cloud property management system designed to meet all front- and back-office needs of independent hotels, hotel groups and chains, vacation rental management, and inns. WebRezPro offers all the features of a traditional PMS such as integrated accounting, GDS connectivity and multiple interfaces, as well as advantages unique to cloud-based

systems, including remote accessibility, integrated Web and mobile reservations and automatic data back-up. Serving hundreds of clients in 20 countries, WebRezPro is a product of World Web Technologies Inc., a pioneering Internet marketing and software company for the tourism and hospitality industries since 1994.
